Flat

Optical USB mouse with embedded self-retracting cable

DICOTA's new "Flat" optical mouse makes day to day working life much more enjoyable! A key feature of this mouse is its self-retracting cable, which with a gentle pull disappears simply and quickly inside the mouse. Tangled and knotted cables are a thing of the past! Precise working can be achieved with the 1000 dpi optical sensor. The three buttons including the scroll wheel and Plug & Play function provide the necessary convenience when working with it. In addition, Flat has an innovative, flat design. Attractive and practical - Flat is the perfect companion for day to day business life!
